

SERVICE STATIONS

INTEGRATION OF THE COMPLETE CIRCUIT OF TOBACCO PRODUCTS SALE WITH THE ALVIC SYSTEM

TOBACCO DISPENSER MODULE™

01. Direct connection

Connection module with Azkoyen tobacco machines for the sale of tobacco from Octan POS. Automatic dispensing of the product in the machine, without the need for additional hardware.

02. Complete sales circuit

Allows the management of the entire sales process: purchase receipts, stock control, sales made.

03. Agility

Space optimization, operations simplification, and agility in the product sale to the end customer.
